*Nikolaos C. Koutsogiannis*  
*Superintendent of Schools*

**Phone:** 856-881-8700  
**Fax:** 856-863-8196

*November 28, 2017*

*To the Clayton Community:*

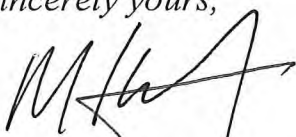

*Clayton Public School District has always been committed to providing a safe learning environment for our students and staff. Recent mold issues in neighboring districts have prompted us to review our procedures and policies with regard to indoor air quality. I can say with confidence that we are completely compliant with all laws and regulations. Our facilities are clean, healthy, and safe for all occupants.*

*As a precaution, we contracted with Epic Environmental to conduct air quality tests in all our school buildings. **I am pleased to announce that the results showed that air quality is within normal limits in both buildings.** Epic Environmental also conducted visual inspections. During the visual inspections, they found a few areas of concern. Those areas were immediately remediated using EPA-approved methods. The testing results are available at the Board of Education office for your review.*

*Though not required, Clayton Public School District will conduct an annual air quality test to ensure that nothing is missed. We will also continue to conduct weekly visual checks of the buildings and be vigilant with our regular maintenance procedures. Parents, students, and staff can be assured that the schools are properly maintained and monitored.*

*As always, I thank you for your continued support of the District.*

*Sincerely yours,*

*Nikolaos C. Koutsogiannis*  
*Superintendent of Schools*  
*Clayton Public School District*
